BEFORE THE DIVISION OF OIL, GAS AND MINING
DEPARTMENT OF NATURAL RESOURCES
STATE OF UTAH

IN THE MATTER OF A TENTATIVE
DECISION TO APPROVE THE LARGE
MINE NOTICE OF INTENTION FOR
McFARLAND & HULLINGER'S
SIO2 #1-6 MINE, TOOELE COUNTY,
UTAH

NOTICE OF TENTATIVE
DECISION TO APPROVE
NO. M/045/046

THE STATE OF UTAH TO ALL OPERATORS, TAKERS OF PRODUCTION,
MINERAL AND ROYALTY OWNERS, AND PARTICULARLY ALL PERSONS
INTERESTED IN SECTIONS 21 AND 28, TOWNSHIP 1 NORTH, RANGE 6
WEST, SLBM, TOOELE COUNTY, UTAH.

Notice is hereby given by the Division of Oil, Gas and Mining
of its tentative decision to approve the Large Mining Operations
Notice of Intention for McFarland and Hullinger's SIO2 #1-6 Mine.
Mining activities will affect the following area: NW1/4 of the NE1/4
and the NE1/4 of the NW1/4 of Section 28, and the SW1/4 of the
SE1/4 of Section 21, Township 1 North, Range 6 West, Tooele
County, Utah.

This is an existing high silica sandstone quarrying operation.
It is a small mining operation which is being expanded to a large
mining and reclamation techniques on approximately 40 acres of
land.

During Operations:

The base of the operating area is used for product stockpiling
and processing of quarried material. Available topsoil
was pre-stripped from this area and stockpiled for use in final
reclamation. Drills holes in the quarry area will be loaded
with explosives and blasted. The blasted material will fall or
be pushed down to a collection point where it will be picked
up by loaders. The material will then be crushed and sorted
for proper size gradation. This site will produce approxi-
mately 240,000 tons a year of product. No waste will be pro-
duced. All mined and crushed material is sold as marketable
product.

After Operations:

The processing areas and access roads will be reclaimed by
ripping and then redistributing the stockpiled topsoil mate-
rial to a 6-inch depth, then reseeded in accordance with the
prescribed seed mix. The working face (highwall of the
quarry) will be left as is and allowed to oxidize, returning to
its original color naturally and permanently. About half of the
total disturbed area will be reclaimed. The balance will re-
main as quarried highwall area.

The person representing the company is Mr. Sid Hullinger;
Phone (435) 882-0103. McFarland and Hullinger is fulfilling obliga-
tions under the Utah Mined Land Reclamation Act of 1975, Utah
Code Ann. §40-8-18.

Any person or agency aggrieved by this tentative decision
to issue approval is hereby requested to submit written protest
within thirty (30) days of the date of publication to Mary Ann
Wright, Associate Director of Mining, Division of Oil, Gas and Min-
ing, 1594 West North Temple, Suite 1210, Box 145801, Salt Lake
City, Utah 84114-5801, setting forth factual reasons for the com-
plaint. If no responsive written protests are received by the Divi-
sion within 30 days after the last date of publication, the tentative
decision of the Division will be final.
